DETAILED ACTION

1. In view of the applicant's arguments regarding the prior art of record, the case has been REOPENED.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-59 are rejected under 35 U.S.C. 103(a) as being unpatentable over Khoury, "International banking: A Special Look at Foreign Banks in the U.S." Journal of International Business Studies. Vol. 10, no. 3 (Winter 1979), pp 36-52

Khoury discloses the concept of profit maximization and multinational banking model which produces loans in a country and "books them" to subsidiaries via a client bank (or correspondent bank) see pages 38, 39+). From the teachings of Khoury, it would have been obvious for one of ordinary skill in the art to conduct international banking operations and provide international infrastructure. Such a modification would be an obvious expedient to one of ordinary skill in the art.
